

Let's Make And Learn!

FORGIVEN HEART

What You Need:

Red construction paper
Picture of Jesus duplicated from
below for each child
Scissors

Craft knife
Crayons or felt tip markers
Plastic tape

How To Make It:

1. Cut a heart out of the red construction paper.
2. Using a craft knife, the teacher or an adult should cut a door in the center of the heart, folding the paper back so the door will open.
3. Each child should color his picture of Jesus, and carefully tape it to the back side of the red heart so that the picture of Jesus shows through the window.
4. Each child should write the Bible verse for this lesson on the front of his heart picture.
