

# Let's Make And Learn!

## HEAVENLY FISH

### **What You Need:**

White construction paper  
Stapler  
Tissues  
Watercolors, crayons, or markers

String or yarn  
Scissors

### **How To Make It**

1. Have each child draw a fish outline on a 9 by 12-inch piece of white paper (taking up as much of the space as possible).
2. Cut out two of this design.
3. Use the watercolors, crayons or markers to draw and decorate both of the fish shapes. Be sure to add an eye and fins on both sides.
4. Next, print the Bible verse for this lesson on one side of the fish design and the reference on the other side.
5. When the fish is finished, staple both pieces of paper together (around the edges), leaving only a small place open for stuffing with tissues. When stuffed, finish stapling the fish closed.
6. Attach a string or yarn hanger to the top of the fish so that it can be hung in a window or from the ceiling.
